# The Brand

---

**As a young girl Crista Marie Miller was visited by special friends only she could see, bringing beautiful messages of love and fascinating stories of life from thousands of years in the past. Central among those friends were Mary Magdalene and Yeshua, who we know as Jesus. They told Crista Marie the true stories of their lives, shared their deep wisdom teachings, and continued with transformational guidance for all of humanity. Today Crista Marie channels Mary Magdalene, a generally misunderstood real life historical figure and brings her teachings to the modern world during this time of rapid evolution.**
